

**RATE PAYERS
Of FELTON and
SAN LORENZO VALLEY WATER DISTRICTS**

**Discussion of the JOINT FACILITIES AGREEMENT is
scheduled for an upcoming SLVWD Board meeting
concerning the possible merger of the
Felton Water District with SLVWD.**

**Thursday March 3, 2005 7:30 pm
SLVWD Operations Bldg. 13057 Highway 9 Boulder Creek**

BENEFITS TO CONSIDER

**Felton would add approximately 1300 ratepayers to the SLVWD
5800 ratepayers – increasing the size of the district by 22.4%.**

- Greater pool of resources: 2nd water treatment plant, additional water supply
- Economy of scale: management, overhead, administrative costs shared
- Felton pays into the system: local money supports local economy
- Future capital improvement cost and risk shared

Felton and the SLVWD share the same watershed.

- We have the same stake in protecting our land and water
- Local control of local resources: our valley's watershed can be better managed within one entity
- Unite the valley communities
- Stop the spread: RWE/Cal Am has already tried to purchase the Boulder Creek Sanitation Facility and San Jose Water Company

**Felton ratepayers pay ALL the purchase bond and related costs.
We want to be a part of a democratically run, local system.**
